Bio

Our tribute band brings Black Sabbath's iconic sound to life—from the heavy riffs to the dark atmosphere that made the band legendary. Sick Sabbath delivers an authentic rendition of Black Sabbath's music, capturing the power and energy you expect from the original masterpieces. The sound, the visuals, and the killer riffs transport you back to the glorious era of Ozzy, Tony, Geezer, and Bill. Get ready for an unforgettable night filled with rock classics and pure magic. Let the Sabbath atmosphere take over.

Sick Sabbath has mastered virtually the entire range of Sabbath songs, offering a vast selection for your event. Alongside some more modern tracks and perhaps an Ozzy solo song, the classic hits are sure to captivate everyone and get the crowd singing along. While staples like "War Pigs," "Iron Man," and "Paranoid" are likely to feature, the audience will also be treated to unique and unexpected song choices. Black Sabbath's extensive repertoire is performed with the same attitude as in the 1970s. It's a total experience—delivering both the music and the spirit of Black Sabbath!
